COM / COL INFORMATION

SHIP FABRIC TO: Nathan Anthony Furniture, 4940 District Blvd, Vernon, CA, 90058

CUTTING INFORMATION: Unless otherwise specified, we will apply Com fabric using our best judgment. We reserve the right to determine the face side and the top and bottom of the design, unless stated. If a COM is not an upholstery fabric, or in our opinion will not tailor properly, we will notify you. COM fabric requiring muslin covering as a lining will be priced at an additional cost of \$279 per seating unit. Overlocking COM fabrics will be priced at an additional cost of \$69 per seating unit. If a striped fabric is used on a tufted seat, such as an ottoman, or if any upholstered base border or skirt will not line up to the stripe, no credits or returns will be accepted for failing to do so.

COM IDENTIFICATION: COM fabrics **MUST BE IDENTIFIED** as follows:

Mill Name	Purchase Order Number
Fabric Name with Style Number	NA Customer Name

Any documentation or instructions regarding placement of COM should be sent on the COM form with the purchase order, **NOT WITH THE FABRIC**.

COM YARDAGE: Yardage is based on 54" plain fabric with no pattern or repeat. When using fabric that is narrower than 54" or is patterned, use the conversation chart below. Due to the many variables in fabric and fabric application to style, these figures are an approximate guide only. There are times when there will be COM left over due to advanced technology and cutting efficiencies. At times due to unusual patterns or proportions in the fabric or design of a piece, more yardage may be needed. Nathan Anthony Furniture will **not** be responsible for additional fabric needed or excess fabric that is left. COM fabric will not be returned unless requested see policy below. Nathan Anthony Furniture does not assume responsibility for COM fabric imperfections, dyelot variations, or wearing, and will not give credit for COM fabric if later found unfit for upholstery.

COL SQ. FOOTAGE: Hide square footage depends on the size of the hide and the frame. Please request a quote.

COM BRAIDED CORD: COM braids must have a 3/8" minimum flange to sew.
