Modern Glamour

It's hard to say what you notice first about this sofa: the hand-pulled diamond tufting? The lush velvet fabric? More than likely, it's the dramatic colour: an aubergine shade that's bound to turn a few heads. It's show-stopping

glamour with a modernist take: for this look, think lush, velvety fabrics in wow colours paired with clean modern lines and elegant detailing—a style that draws from both Hollywood glamour and mid-century design.
