## WETSTYLE'S HANDCRAFTED FRAME COLLECTION

Like a shoji screen, the FRAME collection takes its inspiration from traditional Japanese architectural principles, marrying maximum utility with simple and elegant forms. Using a unique combination of mixed eco-friendly materials in bathroom storage design, **WETSTYLE** brings together powder-coated aluminum accompanied by accents of walnut or oak and colored, lacquered glass. The collection features premium options in LED lighting, mirror defoggers, and discreetly flush-mounted electrical outlets.

An integrated countertop nestles into the vanity to complete a harmonious modern or transitional look. Like all **WETSTYLE** products, the FRAME collection is handcrafted in Montreal, Canada.

## A DECADE OF STYLE

For ten years **Nathan Anthony** has been introducing fresh product designs for the home inspired by travel, music, art, fashion, architecture, and contemporary culture. During this spring's market in High Point, North Carolina, Nathan Anthony celebrated with a special cocktail reception for the design trade. The reception was well attended and everyone toasted to Nathan Anthony's continued success.
