FLEXIBLE ARRANGEMENTS

Four height options make up Tetra, a new table system from California furnishings resource **Nathan Anthony** that goes beyond mere surface functionality. Create a flexible arrangement in any living space with three cocktail-height tables, designed to overlap for a stacking tiered effect or to coordinate independently with the correlating side table. Architecturally inspired, each thin, tube steel frame supports a proportionally slim wood top. It was conceived to complement Nathan Anthony's award-winning, contemporary upholstery styles.
